***Research on Down Syndrome
Across the Life Span***

Down Syndrome

Research Group

Research on Cognition

Across the Lifespan:

Children, Adolescents &

Adults

The DSRG is currently seeing individuals for the following studies:

1. Sleep assessment (sleep report provided as feedback), ages 7-18 years
2. Developmental assessment ages 7-40 years
3. Intervention and Preschool age studies starting summer 2010

We are always looking for new research participants, so please feel free to email or call us if you think you or your child may be eligible for one of our studies.

Additional FAQs:

- 1. We provide parking at UofA or visit you in your home**
- 2. We have weekday or weekend appointments**
- 3. Compensation and feedback are provided**
- 4. The studies are for individuals of all levels of function**
